# Instructional Strategies

Ever wonder what tools  
faculty are using online?

*Brain Boosting  
Instructional Strategies*

**Surface Pro 2** is the new Microsoft tablet that can replace your laptop to manage online courses.

**Storify** lets users tell stories by collecting posts from social media (Twitter, Facebook, and Instagram) and assembling them into an interactive dynamic format.

**Join us as WSU faculty show and tell us what tools they are using and why they are using them!**

**Lunch will be provided**
